

Mr. Q

From: Tron

Thanks for every service you have with us. Every time you preach you leave me with something to focus on every week. You are a father figure to me, you are a very good leader. I have much love for you, you are strong minded, Educated black man and if some of us had a person like you in our lives we will be a whole different person. The important thing I have is that you take things from the bible and picture it in our point of view. Keep coming back because you push me to complete my dream and I really want to make it in the music business. So God Bless you and pray me and my family and career.

Keep

Coming
