Dear Mr. Quinoes,

When we went to the foreclosure clinic my wife and I thought that there was no hope for us. I was very happy when we met you and your assistant.

You were honest from day one and were able to pin point our issues and direct us towards the right path. I feel badly that you couldn't do our loan, but I am amazed at how much work you put in with us. I thought you were working with the City and being PAID for it. When my wife told me you were doing this Pro-Bono I almost fell out of my chair.

I am sending all my friends and anyone who needs a loan to you. You are a good man and it is obvious you are doing God's work. **Your direction was exactly what we needed and w**hen we get out of the jam we are in I will ONLY call you to do our loan.

Thank you and Educate Homeowner and the City of Miami,

  
Paul
