Dear Carlos:

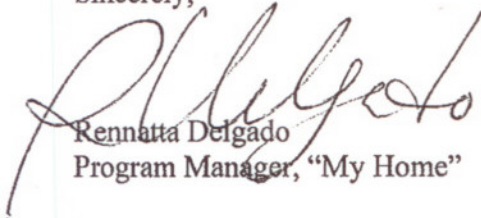

I wanted to take the opportunity to extend my appreciation and gratitude to you and EducateHomeowner.com for presenting at Centro Campesino's First Time Homebuyer Education Workshops.

The services you provide are highly beneficial to our participants. With your years of expertise, you bring excitement to our workshops.

Your positive reinforcement and willingness to educate community members about homeownership were illustrated by the class participation. Unsurprisingly, the feedback from the participants was positive.

Again, thank you for the time you volunteered with Centro by presenting at our Homebuyer Education Workshops. I look forward to working with you again in the future.

Sincerely,

Rennatta Delgado
